

All our vans are regularly serviced and maintained to the highest standards, with your safety in mind. Even if you have never driven a van or small truck, it is no big deal ! Here are a couple of basic tips :

- Adjust your mirrors.
- Be aware of the extra height and width of the van you are driving.
- Trucks and vans are higher, longer and wider than cars and have a wider turning radius.
- Watch out for low bridges and overhead barriers at the entrance to car parks etc.
- Park the vehicle close to the point where you want to unload.
- Get somebody to guide you back into position and tell you when to stop.
